

NEWSFLASH

Welcome to the ENCR Newsflash - June 2025

This is the newsflash of the European Network of Cancer Registries. In this issue we highlight the recent update of cancer registries data in the European Cancer Information System and a Cancer Project tool to find synergies and relationships between cancer-related projects funded by Horizon Europe-Mission on Cancer calls and EU4Health.

NEWS

Updated European Cancer Information System

An update of the European Cancer Information System (ECIS) displays up-to-date cancer indicators in a fresh interface, providing a powerful tool for policymakers, researchers, and healthcare professionals to inform cancer control strategies. The platform offers insights into the latest geographical and temporal trends in cancer incidence and mortality across Europe, enabling comparisons between countries and regions.
